

The BAOF079 Series is OPGW Optical Cable Metal Joint Box. Junction box is mainly used for protecting the fiber optic junction between two cables and reserve a section of fiber optic for maintenance in the box. The box has good leakproofness, anti-water and damp-proof feature and can not corroded in the power line.

- Various sizes available
- Applicable to different cable size

Mechanical Dimension (mm)

Application:

The scope of application is: Aerial, wall-mounting etc.

The ambient temperature ranges from -40°C to $+65^{\circ}\text{C}$.

Features:

1. Suitable for OPGW and ADSS fiber optic cable.
2. Fully kitted with all parts for convenient operation.
3. Overlap structure in splicing tray for easy installation.
4. Fiber-bending radius guaranteed more than 40mm.
5. Easy to install and re-entry with a common can wrench.
6. Excellent Mechanical Sealed to protect fiber and splice ensuring durability.
7. Stand up to severe condition of moisture, vibration and extreme temperatures.
