

The BCA903 Series adapter utilizes high quality chip solution and is equipped with comprehensive protection features. It provides a stable power source for devices.

Main Features

- Ultra-lightweight and small in size
- Practical and easy to store
- Ultimate cost-effectiveness

Application

- Provides accurate voltage, current, and power supply
- Protects devices from power fluctuations
- Compatible with a wide range of electronic devices
- Convenient for portability and ease of use

Specification

Item	Parameter
Input	100-240V, 50/60Hz
Output	18W(max)
Certification Standards	EAC62368
Certificates	EAC
Static Discharge	Air 15KV / Contact 8KV
Surge Protection	6KV
Operating Temperature	0 ~ 45°C
Protection Functions	OCP (Over current Protection), OVP (Over voltage Protection)
Energy Efficiency	DOE-VI
