

The BCC838 Series fast charger uses intelligent management chips to intelligently match and stably output the required current, providing fast and reliable power supply for mobile phones.

Main Features

- Exquisite craftsmanship and design
- Compact size that saves space
- Upgraded intelligent fast charging
- Protects the phone from overheating

Application

- Super fast charging compatible with most smartphone brands
- Protects devices from power fluctuations
- Compatible with a wide range of electronic devices
- Convenient for portability and ease of use

Specification

Item	Parameter
Input	90-264V, 50/60Hz
Output	Type-C :5V3A 9V2.22 12V1.67A(20W) USB-A: 5V/3A,9V/2A,12V/1.5A
Output Power	20W Max
Material	Fire-resistant PC casing
Product Dimensions	30.2×30.2×32.5mm (excluding prongs)
