

The BCC845 Series fast charger uses intelligent management chips to intelligently match and stably output the required current, providing fast and reliable power supply for mobile phones.

### Main Features

- 45W output power fast charging, supports PD3.0 fast charging protocol
- Built-in intelligent management chip, intelligently matches and stabilizes the required current output
- Supports international standard 100V-240V wide voltage output, capable of handling overseas travel with ease
- Made of fire-resistant PC material, safe and durable

### Application

- Super fast charging compatible with most smartphone brands
- Protects devices from power fluctuations
- Compatible with a wide range of electronic devices
- Convenient for portability and ease of use

### Specification

Item	Parameter
Input	90-264V, 50/60Hz
Output	5V/3A,9V/3A,15V/3A,20V/2.25A, 3.3V-16V/3A(45W Max), 3.3V-21V/2.25A(45W Max)
Output Power	45W Max
Material	Fire-resistant PC casing
Net Weight	115.57g
Product Dimensions	54.0×55.7×28.7mm (excluding prongs)
